8827750701

Summary

3rd year B.Tech student in Computer Science and Engineering (AI/ML) at DIT University, interested in AI engineering and data science internships. Hands-on project experience with Python, machine learning workflows, feature engineering, and Flask-based applications.

Education

DIT University, Dehradun

B.Tech, Computer Science and Engineering (AI/ML) Current CGPA: 7.0/10 06/2028

Army Public School Roorkee

Class X (CBSE): 81% 06/2024

Army Public School roorkee

Class XII (CBSE): 79% 06/2022

Skills

Python, java, sql, git, github, jupyter notebook, Flask, HTML, CSS3, JavaScript, Object Oriented Programming, VS Code, TensorFlow

Projects

Phishing URL Detection System | Python, Scikit-learn, Pandas, NumPy, Flask, Joblib

- Developed an ML-based phishing detection system using a dataset of **101K+ URLs** to classify URLs as phishing or legitimate.
- Engineered **25+ lexical URL features**, including URL length, domain structure, suspicious keywords, character ratios, and entropy.
- Trained and evaluated **4 classification algorithms**: Logistic Regression, Decision Tree, Random Forest, and SVM to identify the best-performing mode

Predictive Cyber Defence | AI/ML & Cybersecurity

- Developing an LSTM-based world model using CSE-CIC-IDS2018 network traffic to forecast network-state transitions across multiple future time windows.
- Engineering a temporal pipeline for flow-level features, multi-step attack forecasting, and MITRE ATT&CK stage mapping, with SHAP-based explainability.interpretable security alerts.

Tech Stack: Python, PyTorch, Pandas, NumPy, Scikit-learn, SHAP, Streamlit, Plotly, Scapy.
